ON-GROUND CHINA SOURCING & SUPPLIER VERIFICATION

COMPANY PROFILE — 2026 EDITION

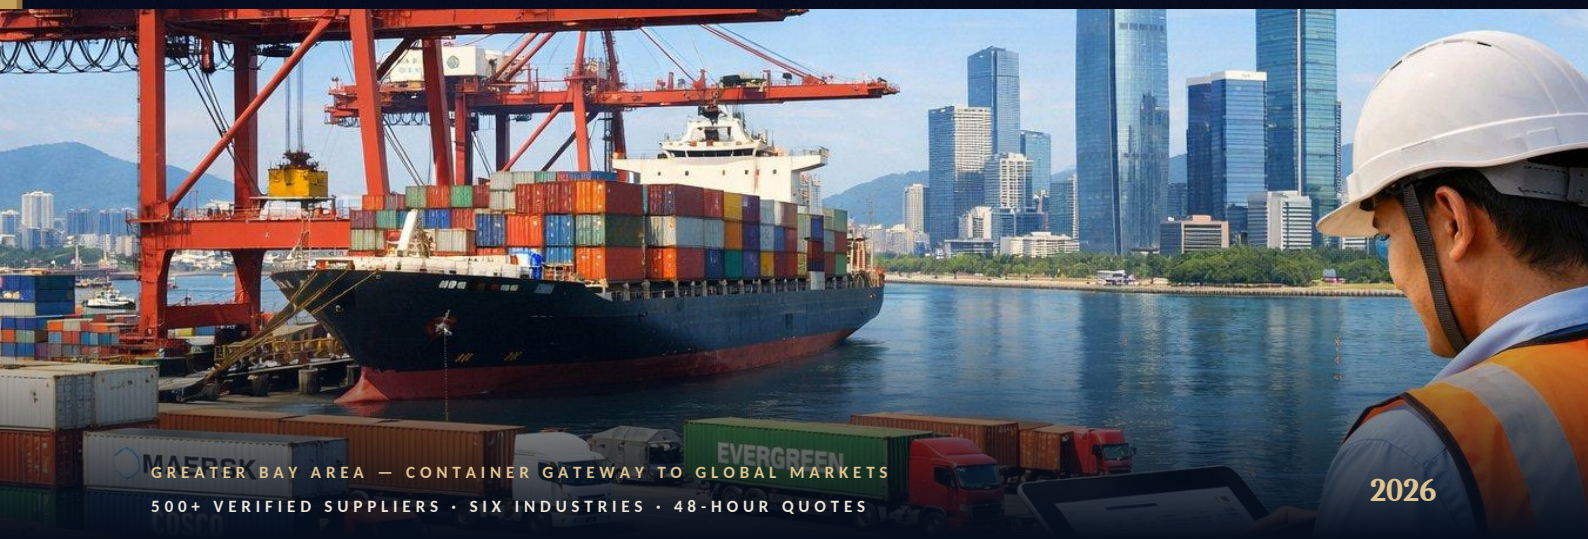

EVIDENCE-FIRST SOURCING

China sourcing that survives an audit.

Supplier verification, production oversight, and a documented audit trail — factory visits, QC checkpoints, and payments, logged into one record your team can stand behind.

EST. ON THE GROUND — NOT REMOTE

01 — THE STANDARD

Sourcing you can defend in an audit.

“Trust is not a claim. It is a paper trail.”

THE SOLEY PRINCIPLE

Soley B2B verifies suppliers, inspects production, and logs every step — factory visits, QC checkpoints, payments — into one audit trail your team can stand behind. We replace ad-hoc supplier relationships with a structured, auditable system designed for enterprise procurement.

Our teams operate on the ground in Ningbo, Shenzhen, and Guangzhou. Every engagement follows the same documented workflow: no informal channels, no verbal promises, no undocumented payments.

02 — WHO WE ARE

On the ground. In the factory. On the record.

Soley B2B is an on-ground China sourcing and supplier verification partner. We are not a brokerage operating by email — our teams are physically present where production happens, conducting factory audits, verification visits, and quality inspections in person, then logging every action into a structured platform your procurement team can audit in real time.
